SUMMARY

Software Engineer with 4+ years of experience building, deploying, and maintaining production web applications across SaaS, e-commerce, enterprise platforms, and GenAI solutions. Experienced in React.js, Node.js, Express.js, PHP, REST APIs, databases, hosting, and production deployments. Strong ownership of frontend architecture, end-to-end feature delivery, third-party integrations, performance optimization, and production support.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, PHP, SQL, HTML5, CSS3

Frontend: React.js, Next.js, Tailwind CSS, SCSS

Backend: Node.js, Express.js, REST APIs, JWT, Authentication & Authorization

AI / GenAI: Generative AI, LLMs, AI Agents, RAG, Vector Databases, Prompt Engineering, AI Automation

Database: MySQL, MongoDB

Cloud & Deployment: AWS, Linux, Hosting, Server Configuration, Production Deployment, DNS, SSL, CDN, Caching

Engineering: Git, GitHub, API Integration, Performance Optimization, Debugging, Code Review, Agile

CMS: WordPress, WooCommerce, Headless WordPress

PROFESSIONAL EXPERIENCE

EnFuse Solutions

Software Engineer

Mar 2026 – Present

Mumbai

- Own the **frontend architecture** of a large-scale SaaS platform, defining folder/file structure, component organization, and development patterns for maintainable feature delivery.
- Contribute across **frontend and backend development** using React.js, Node.js, Express.js, and REST APIs to deliver production features end-to-end.
- Work on **Proctifai**, an AI-powered online examination and remote-proctoring SaaS platform, contributing to product functionality across frontend and backend.
- Contribute to **multiple GenAI applications** across company projects, integrating AI capabilities into practical software workflows.
- Transform raw business requirements and content into **lead-generation landing pages** designed to support customer acquisition.
- Delivered the complete **Vapes Vault e-commerce client website within 15 days**, including requirement understanding, product categorization, implementation, and production delivery.
- Handle **hosting, server configuration, deployments, production releases, updates, and post-deployment support** across applications.
- Collaborate with designers, QA, product managers, and stakeholders to translate requirements into scalable technical solutions.

Savit Interactive

Senior Web Developer

Aug 2025 – Mar 2026

Mumbai

- Built **full-stack enterprise web solutions** using WordPress, React.js, Node.js, PHP, and REST APIs for client business requirements.
- **Managed and optimized 150+ client websites**, focusing on performance, security, maintainability, and production stability.
- Developed scalable backend services, custom business functionality, and API integrations across web applications.
- Developed **custom WordPress themes, plugins, and headless WordPress implementations** for complex business requirements.
- Improved application performance through **code optimization, caching, database tuning, and Core Web Vitals** practices.
- Managed **hosting, production deployments, releases, server updates, and post-deployment support**.
- Participated in architecture discussions, sprint planning, technical estimation, code reviews, and mentoring of junior developers.

Nexsales

Web Developer

Oct 2024 – Jul 2025

Mumbai

- Delivered **full-stack enterprise-grade solutions** for clients across India, USA, UK, and Canada using PHP, JavaScript, React.js, Node.js, and REST APIs.
- Developed custom **WordPress and WooCommerce** solutions based on business and technical requirements.
- Integrated third-party APIs, payment gateways, CRM systems, and external business tools.
- Improved website performance using **caching, database optimization, code optimization, and Core Web Vitals** practices.
- Handled **hosting, deployments, production updates, and technical maintenance** across client applications.

- Collaborated with cross-functional teams to understand requirements and deliver production-ready solutions.

Codeworkss

Jan 2022 – Sep 2024

Junior Web Developer

Mumbai

- Developed and maintained web applications using **PHP, JavaScript, HTML5, CSS3, MySQL, and WordPress**.
- Built custom WordPress themes, plugins, reusable components, and REST API integrations.
- Worked on application enhancements, production issues, debugging, testing, and performance improvements.
- Refactored application code and optimized database queries and caching to improve application stability.
- Supported **hosting, deployments, production releases, and ongoing application maintenance**.
- Collaborated with senior developers, designers, and QA teams while following Git and Agile development practices.

SELECTED PROJECTS

AlphaPilot — AI-Powered Market Intelligence Platform *Next.js | TypeScript | FastAPI | Python | PostgreSQL | Redis | Multi-Agent AI | OpenBB | Docker*

- Built an AI-powered market intelligence platform consolidating **market data, news, financials, technical indicators, watchlists, portfolio context, alerts, and broker connectivity** into a unified research experience.
- Designed a **Multi-Agent AI architecture with a centralized AI Gateway** to transform fragmented financial information into personalized market intelligence and contextual insights.
- Developed full-stack services using **Next.js, TypeScript, FastAPI, Python, PostgreSQL, and Redis**, with adapter-based market-data and broker integrations.
- Integrated **OpenBB, background Python workers, REST/OpenAPI interfaces, Docker/Docker Compose**, and Excel/CSV export functionality.

Proctifai — AI-Powered Examination & Remote Proctoring SaaS *React.js | Node.js | Express.js | GenAI | REST APIs*

- Contributed to a large-scale SaaS platform for **online examinations and remote proctoring**, working across frontend and backend functionality.
- Owned the **frontend architecture**, including folder/file structure, component organization, and development patterns.

Vapes Vault — E-commerce Platform *Full-Stack Development | E-commerce | Production Deployment*

- Delivered the complete client website within **15 days**, covering requirement understanding, product categorization, implementation, and production deployment.

CERTIFICATIONS & PROGRAMS

AI Foundations | Applied AI Foundations | Agents and Workflows | PESTO Fellowship — Full Stack Development & Product Engineering

EDUCATION

MBA — IT Management & Marketing

Bharati Vidyapeeth, Pune | 2025 – Present

B.Sc. Information Technology

Vidyalankar School of Information Technology | 2018 – 2021
